SUMMARY

A technical problem-solver with over 5 years of hands-on experience providing multi-tier support in a fast-paced customer centric environment. Experienced in Microsoft 365 and Intune deployment, managing BAU requests, hardware troubleshooting and communicating effectively with users of all technical levels. Seeking to bring my skills to an infrastructure or dedicated IT support role to deliver quality support within a growth-oriented team.

CORE SKILLS

- **Customer Service:** Incident & Request Triage.
- **Problem Solving:** Root Cause Analysis of hardware and software issues.
- **Technical Support:** SLA and IT Service Management.
- **Cloud & Identity:** Microsoft 365, Active Directory, Entra ID, Exchange Online, SharePoint, Citrix, Sophos, Xerotec/YSoft Print Solutions.
- **Device Management & OS:** Intune, ME MDM, Windows 10/11, Windows Server, VMware.
- **Software & Tools:** Zoho SDP, Manage Engine, Canva, Scribe, CMD/PowerShell (Basic).
- **Anti-Virus and Systems monitoring:** Sophos XG Firewall, Azure, Microsoft Defender.

PROFESSIONAL EXPERIENCE

IT Support Technician | The Pioneer Group

October 2020 – November 2025

Key IT Projects

M365 Cloud Migration & Tenant Configuration

- Assisted with the Microsoft 365 tenant configuration, migrated on-premise data to the M365 cloud while utilising AD Connect and PowerShell to update object attributes.
- Led an internal communications project by developing a SharePoint Intranet and resource hub, which improved staff accessibility and streamlined IT self-service.
- Migrated user accounts from on-prem AD and Citrix to M365. Applied device configurations via Microsoft Intune.
- Facilitated the rollout of new equipment and software for over 150 staff members, providing guidance and training to users of all technical levels.

Diagnostics

- Fully investigated and permanently resolved a severe user profile settings conflict for a senior stakeholder who had been unable to print reliably for four years due to repeated temporary workarounds.
- Resolved a complex intranet page-redirect programming issue within the first month of

employment, saving the business £2,000 in external contractor costs.

Security & Cloud Configurations

- Advised management on infrastructure security and recommended a gateway server to secure remote endpoints. Implemented while integrating Azure data with external APIs.
- Led helpdesk automation initiatives around self-service solutions that intercepted user queries before ticket submission.

Core Operational Duties

- Provided dedicated first and second-line support via telephone, email, and live chat, while successfully resolving and managing third-line support requests.
- Hardware troubleshooting and maintenance.
- Administered Active Directory and Exchange in a hybrid environment.
- Delivered training to staff on business software.
- Maintained customer accounts, IT assets, and the internal technical knowledgebase.

Customer Experience Agent | PerfectHome

April 2019 – October 2020

- Facilitated the customer journey and managed inquiries via multiple channels (Live Chat, phone, email), ensuring timely and accurate issue resolution.
- Collaborated with internal teams, couriers, and companies to deliver optimal service.

EDUCATION & PROFESSIONAL DEVELOPMENT
